SYNTHESYS

SYNTHESIS OF SYSTEMATIC RESOURCES

An initiative launched by the Consortium of European Taxonomic Facilities (CETAF)

Access to research infrastructures

Europe's leading centres for systematics-related research invite scientists based at European institutes to access their collections, facilities and libraries with the support and training from in-house researchers and curators.

Through the support of the European Community – Research Infrastructure activity under the FP6 'Structuring the European Research Area' Programme access is being offered under the project SYNTHESYS to the following eleven national Taxonomic Facilities (TAFs).

GB-TAF: The Natural History Museum, London; Royal Botanic Garden Kew; Royal Botanic Garden, Edinburgh	DE-TAF: Museum für Naturkunde, Humboldt-Universität Berlin; Botanischer Garten und Botanisches Museum Berlin-Dahlem, Freie Universität Berlin
FR-TAF: Muséum National d'Histoire Naturelle, Paris	AT-TAF: Naturhistorisches Museum, Wien
DK-TAF: The Natural History Museum of Denmark	HU-TAF: Hungarian Natural History Museum, Budapest
ES-TAF: Museo Nacional de Ciencias Naturales (CSIC) and Real Jardín Botánico (CSIC)	PL-TAF: Museum and Institute of Zoology, Polish Academy of Sciences, Warsaw
SE-TAF: Naturhistoriska Riksmuseet, Stockholm	BE-TAF: Royal Belgian Institute of Natural Sciences, Brussels; Koninklijk Museum voor Midden-Afrika, Tervuren; National Botanic Garden of Belgium, Meise
NL-TAF: Zoological Museum, University of Amsterdam; National Herbarium Nederland, Leiden; Centraalbureau voor Schimmelcultures, Utrecht; National Natural History Museum Naturalis, Leiden	

SYNTHESYS will meet the costs of:

- Access to collections, facilities, libraries and training
- International and local travel
- Local accommodation
- Per diem
- Logistical support

SYNTHESYS provides access to:

- Collections comprising more than half of the world's natural history specimens
- World class libraries
- Facilities for state-of-the-art microscopy, physical, chemical and molecular analysis
- Experienced hosts and trainers

Contact SYNTHESYS for details of the application process and deadlines:
Web address: www.synthesys.info
Email: synthesys@nhm.ac.uk

Calls for proposal are twice per year
Project access available from: December 2004 – January 2009

ES-TAF (ESpaña- Taxonomic Facility) is the successor of the BIOD-IBERIA programme (2001-2004)

Together with complementary facilities in Austria, Belgium, Denmark, France, Germany, Hungary, The Netherlands, Poland, Sweden and the United Kingdom, ES-TAF offers access to researchers from member and associated states of the European Community to utilize the collections, equipment and expertise of the following Institutes of the Consejo Superior de Investigaciones Científicas -CSIC- (The Spanish Council for Scientific Research):

MUSEO NACIONAL DE CIENCIAS NATURALES (Madrid)
REAL JARDÍN BOTÁNICO (Madrid)

First Call for applications: August 2 to September 17, 2004

ES-TAF es el proyecto sucesor de BIOD-IBERIA

Una de las 11 grandes instalaciones taxonómicas europeas integradas en SYNTHESYS.

Ofrece a investigadores europeos o de países asociados, la posibilidad de acceder a las colecciones, al equipamiento de investigación y documentación, así como de colaborar con los investigadores, conservadores y técnicos del

MUSEO NACIONAL DE CIENCIAS NATURALES (CSIC) y del REAL JARDÍN BOTÁNICO (CSIC).

La primera convocatoria se abre el 2 de agosto hasta el 17 de septiembre de 2004

TÁXONES DESCRITOS EN EL VOL. 60 (1) DE *GRAELLSIA*

Orthoptera, Gryllidae

Petaloptila (Zapetaloptila) baenai n. sp.

Petaloptila (Zapetaloptila) carabajali n. sp.

Petaloptila (Zapetaloptila) llorenteae n. sp.

Petaloptila (Zapetaloptila) mogon n. sp.

Coleoptera, Carabidae

Geocharis bivari n. sp.

Geocharis fermini n. sp.

Geocharis quartau n. sp.

Hymenoptera, Eupelmidae

Anastatus maculosus n. sp.

Anastatus magnoculus n. sp.

Calymmochilus delphinus n. sp.

Amphibia, Leptodactylidae

Eleutherodactylus yustizi n. sp.

Cypriniformes, Cyprinidae

Gobio lozanoi n. sp.

GRAELLSIA
